1973 Bozen (I) - studied architecture at TU Wien, TU Delft

feld72 is a collective, a laboratory for architecture, engaged in research and finding new strategies for cliché-dominated or underestimated (urban) conditions. feld72 continuously focuses on the borderline where one system converts into another. Possible answers vary from object related planning to urban investigations and interventions.

Awards:

Karl-Hofer-Award of the Berlin University of the Arts 2004 (for STAUkit© / CODAkit© / FILEkit©)

Nomination for the Communication Award, International Architecture Biennial Rotterdam 2003 (for FILEkit©)

Austrian National Award for Experimental Tendencies in Architecture 2002 (for the Urban Strategies "du findest stadt", CT_map, Toronto Barbecue, rent-a-hitchhiker)

Teaching positions:

University of the Arts Linz, TU Vienna, Berlin University of the Arts

GH3 ARCHITECTS was founded in 2000 to create economical, trendsetting architecture for you. Our emphasis is to provide overall results on creative planning based on integrity and reliability. Our team uses total system skills in planning and implementation of your project.

One of our great advantages is the fact that we use modern EDP-technology. This allows us to provide you with the look and feel of your building early in the planning process. Also, the technology lets us recognize potential complications right away, so that solutions can be addressed immediately.

The emphasis of our office is situated in the Architecture and total project planning performances of
Office and administration buildings
Residential building complexes
Attic expansion and renovation
Hotels
Single family houses

studio morgenbau : that is three architects and no architecture firm in
the usual meaning.

Doing architecture nowadays means to us to be able to take on a task
from many different perspectives.

We work as journalist, creative director and planner. Together we form a
network - implementing our competence from the various fields in our
architectural creation.

nan architects & landscapes

Cooperating since 1999, nan architects and landscapes is established in the spring of 2002. We curiously manoeuvre between the domains of architecture and landscape planning. The blurring of professional boundaries within the team and an unbiased approach to design in general constitute the basis of our mutual understanding of architecture, urbanity and landscape. Our mode of operation emphasizes on detection and comprehension of space- and formrelated conventions, their respective backgrounds and mechanisms. The conscious deduction and alienation of common conventions provide us with the possibility to discover, clarify and give shape to the New and the Different.

Nina Lorber

Born 1974 in Klagenfurt (A)

Study of Architecture at the Technical University Graz and at the KTH-Stockholm (S)

we

deeply believe in the cultural and social value of architecture and feel strongly committed to this responsibility. therefor we are challenged by our claim to quality. the basis to our profession is to weigh the relationship from space to viewer, space to interior, space to reception, space to emotion, space expectation, space to actuality and space to space. our interest in bordered spheres like graphic, design, shaping of objects and communication have widely enlarged our architectural profession.

SHARE architects

Silvia Forlati

Dott. Arch., M. Arch., Registered Architect (ARB_UK), Ziviltechniker (A)
Silvia graduated cum laude from IUAV (Istituto Universitario di Architettura, Venezia) in 1996 and from the Berlage Institute Amsterdam in 1998. She worked for one year in the Netherlands and then joined Zaha Hadid Architects in 1999. She has been representing Zaha Hadid Architects within Jurong Town Corporation in Singapore during the development of the one-north master plan, from June 2001 to April 2002. Since May 2002 she has been working full time for SHARE and since September 2002 she is as well collaborating as assistant with the Institute for Housing and Design of the Vienna University of Technology in Austria, both tutoring students and developing a research on innovation in housing.

Thomas Lettner

Dipl. Ing., M.arch, Registered Architect RIBA, Ziviltechniker (A)
Thomas has graduated from the Technical University in Graz in 1997 and the Berlage Institute Amsterdam in 1999. He has studied in Japan, and has collaborated with Arata Isozaki in Berlin. His graduation project was a proposal for the redevelopment of the Tokyo's Waterfront Subcenter. Since finishing his post-graduate studies he has been working for Foster and Partners London. In 2001 he was sent to Singapore to work on the New Supreme Court, where he was leading construction packages. From October 2002 he has been working fulltime in the Vienna based Share branch.

Hannes Bürger

Dipl. Ing., Ziviltechniker (A)
Hannes graduated from the Technical University Vienna in 2000, with a research on innovative building materials. During his studies he has been doing research work in Tokyo and Kyoto, in collaboration with the Shibaura Institute of Technology (SIT), with Professor Hiromi Fujii. Since his graduation Hannes has been busy realizing projects for SHARE and for various architecture offices in Austria. His expertise includes process management and site coordination.
